CONFERENCE TOPICS

The conference is aimed at problems of testing non-destructive materials, weld joints, constructions etc. The conference will provide the opportunity to meet and exchange developmental experiences of all workers who are interested in and specialise in problematics of brand control, product life, practical application and methods of non-destructive testing in different areas of its usage, normalisation, education, qualification and certification in these areas.

For manufactures, suppliers, service providers and exam achievements, and service organisations in area of NDT, the conference will provide the opportunity to present their offers to wider general public.

CHAIRMAN OF THE CONFERENCE

Ing. Erich Eckhardt
Prezident SSNDT
